## What's so special?

Japanese soufflé pancake is well-known for its airy, fluffy, jiggly presentation. People love to see these pancakes jiggle and dance as they're placed on the table. But these pancakes are so much more than their look. They are a fantastic mix of soufflé and pancake. The fluffy texture befitting of cloud is paired with rich creamy sauce with a hint of fruits to create a perfectly balanced taste that will certainly have you come back for more!

In order to achieve such texture, it requires quality ingredients, perfect timing and techniques. Any misstep would cause a failure. Given the quality of texture, taste, and skill required to create it, it is truly a delicacy in the pancake world!
